

## Seminar on "**Scientific and technological Application for enhancement of productivity and quality in agricultural production**"

For the purpose of promoting scientific and technological applications for agricultural production in Mekong Delta and contributing to socio-economic development,

For the goal of assisting businesses, cooperatives and farming households in improve scientific and technological applications in farming and business production to create products with high productivity and quality. Especially Mekong Delta must focus on investment, research, scientific and technological applications for agricultural development to bring high productivity and economic efficiency and avoid “good price but bad harvest, good harvest but low price”. It’s required to pay much attention to the agricultural sector of Vietnam in general and Mekong Delta in particular as well as intelligent and organic agricultural development for aquaculture and production to enhance the productivity and quality, meet all demands and have good competitiveness during the international economic integration.

Therefore, the Seminar on "*Scientific and technological Application for enhancement of productivity and quality in agricultural production*" organized by the Ministry of Science and Technology with details below:

### **1. Time and location:**

- Time: from 1:30 pm to 5:30 pm on 9 March 2017
